Objective

Looking for a remote contract role in a reputable organization to utilize my web development and database management skills for the growth of the company as a part of a small team of dedicated developers.

Work Experience

Retail Information Systems

Web Developer

March 2021 to Present

Designed a new mobile responsive layout for a web based Point-of-Sale and inventory management application. Integrated custom html and CSS into SquareSpace sites to collect and analyze site data. Diagnosed technical issues with the POS application.

Berlitz

Computer Science Instructor

September 2020 to March 2021

Taught students aged 8-13 the basics of programming and computer science. Revised curriculum and created custom assets to aid remote learning.

Education

University of Texas

Full Stack Web Development

Graduated July 2020

Honors & Awards

Eagle Scout - BSA

2018

Gave back to the community with an Eagle Scout project featuring two large wooden risers that were self-designed, built, and donated to a local youth nature educational ranch.
